Protego Tubing System

To prevent the contaminated fluild
travelling back to the water bottle

Safeguarding Endoscopy
Achieving Better Outcomes

andorate

How to reduce the risk of backflow during a gastroenterology procedure?

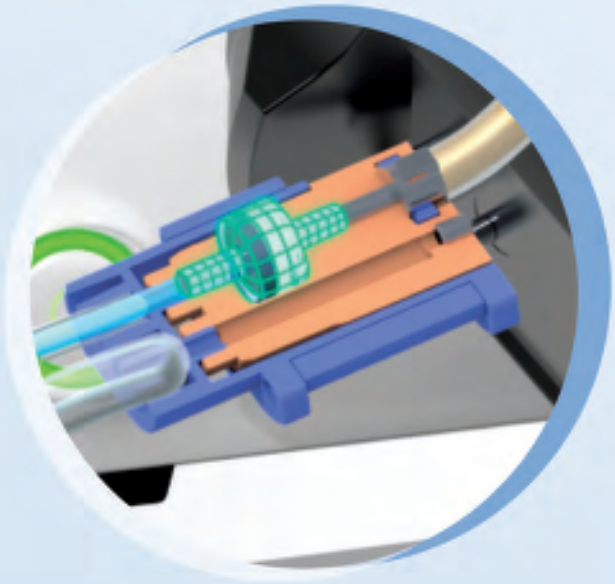

Protego Tubing System

Protego Air-water Connector for single-patient use

Protego Tubing for
24-hour multi-patient use

*Worldwide Patented Backflow Prevention Technology

Protego functions as a shield to prevent contaminated fluid from flowing back into the water bottle, improving user and patient safety.

*Designed for User Convenience

Protego features colour-coded tubing and connectors for easy identification and a one-click open and close mechanism for straightforward operation.

*Cost-Effective Solution

Protego eliminates the need to replace the tubing and water bottles for high-risk patients, saving money and reducing waste.
